Art Unit: 3732

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, drawn to lining by spraying a cylinder bore, classified in class 29, subclass 888.06.
 - II. Claims 10-16, drawn to a lined cylinder bore, classified in class 123, subclass 668.
 - III. Claims 17-19, drawn to a spray apparatus, classified in class 239, subclass 589+.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product of Group II may be made by physical coating as opposed to spray and/or electrical transfer.
3. Inventions I, II and III are unrelated (III from I and II). Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different invention of Group III may be used to apply coatings to other apparatus than cylinders such as flat surfaces and/or just for spraying other fluids, i.e., water.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3732

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Primary Examiner Paul hirsch whose telephone number is (703) 308-2697.
